EVOLUTION **OF TECHNOLOGY**

ZETA is a globally active solutions provider that supports pharmaceutical and biotech companies in bringing vital medicines – such as insulin, infusions, and cancer treatments – to market faster and more efficiently. As an innovation leader, we combine technical expertise with digital excellence, covering everything from planning and construction to automation and qualification of customized process systems. In addition, we take on full responsibility for complex projects as an EPCMV partner, drive digital transformation, and develop sustainable strategies for decarbonization.

You're looking for a role where you can make a real impact but haven't found the right position yet? Then take the apply initiative! We're always looking for talented people who want to shape the future of pharmaceutical engineering with us.

Initiativbewerbungen (unspecified applications)

Location: **Lieboch** | Employment: **Full-time employee** | Entry date: **As of now**

Your tasks

- Engineering & plant design
- Automation & digital solutions
- Project management (EPCMV projects)
- Process development & qualification
- Corporate functions (e.g. HR, Finance, IT)

Your profile

- You are motivated to contribute your skills in a dynamic, international environment
- You take initiative and enjoy working on complex technical challenges
- You think in solutions, not problems, and are eager to continuously learn and grow
- Background in engineering, life sciences, IT or related fields (depending on your focus) is a plus
- You are open to working in an international environment

Interested?
Tell us what drives you, where you see your strengths, and how you would like to contribute at ZETA. We look forward to receiving your unsolicited application.

Under the motto "Let's Engineer Your Career Together" we are looking forward to receiving your application!

Apply now and become part of the ZETA-Team!
