

# EVOLUTION OF TECHNOLOGY

ZETA is a globally active solutions provider that supports pharmaceutical and biotech companies in bringing vital medicines - such as insulin, infusions, and cancer treatments - to market faster and more efficiently. As an innovation leader, we combine technical expertise with digital excellence, covering everything from planning and construction to automation and qualification of customized process systems. In addition, we take on full responsibility for complex projects as an EPCMV partner, drive digital transformation, and develop sustainable strategies for decarbonization.

## Senior Process Engineer (m/f/d)

Location: **Gdansk**

Employment: **Full-time employee**

Entry date: **23.02.2026**

### Your tasks

- Process engineering support for projects (responsibility for deadlines, costs, and process engineering) as Lead Engineer
- Creation of a concept design (preliminary stage to basic engineering); development of PFDs and building layouts, process optimizations, etc.
- Execution of basic engineering; design of plants and equipment (pumps, filters, tanks), fittings (pressure reducers, control and safety valves), pipeline dimensioning
- Creation of media consumption lists
- Responsibility for implementing regulatory requirements (GMP, FDA, etc.)
- Creation of functional specifications
- Detailed engineering; process engineering review of 3D models Commissioning (international)
- Support in the qualification of plants
- Support in the CE marking certification process

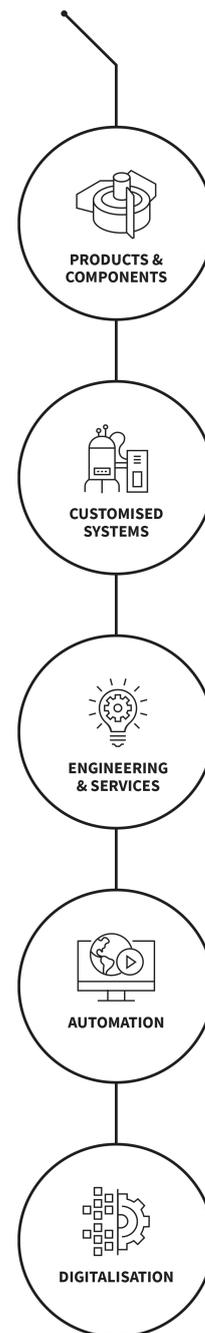

### Your profile

- Completed technical education in the fields of process engineering or biotechnology (university of applied sciences, university, etc.)
- At least 10 years of experience in the planning and qualification of biotechnological plants in the pharmaceutical sector
- COMOS knowledge or a strong interest in acquiring it
- First aid certification is an advantage
- Sound knowledge of MS Office (including MS Visio)
- Negotiable written and spoken English and German skills (additional foreign languages, e.g., Russian, French, are an advantage)
- Willingness to travel internationally (50-60%), sometimes for several weeks at a time
- An independent, responsible, and solution-oriented approach to work, the ability to work in a team, and a communicative and organized personality round off your profile

Under the motto "Let's Engineer Your Career Together" we are looking forward to receiving your application!
