

EVOLUTION OF TECHNOLOGY

The biopharmaceutical market is showing high growth rates and production capacities for the manufacture of high-quality drugs are being built up worldwide. In this challenging environment, the ZETA Group has established itself as a reliable and globally active engineering partner. ZETA designs, builds, automates and qualifies equipment for aseptic liquid production processes in the biotech and pharmaceutical industries. Biopharmaceutical agents such as anticancer agents, insulin, vaccines, infusions and the like are produced on these highly complex "tailor-made" plants. As an international, fast-growing company, ZETA relies above all on its dedicated employees.

Senior Architect

Location: **Almaty** | Contract: **Full-time employee** | Start: **01.02.2025**

Your tasks

- **Key role:** development of the most up-to-date, technically and economically efficient architectural design solutions for industrial pharmaceutical projects
- Development of architectural design documentation at all stages (from concept to detailed design)
- Ensuring compliance of the developed documentation with technical conditions, requirements of standards and regulatory and technical documentation (local, European, GMP)
- Preparation and issuance of technical tasks to related engineering disciplines
- Alignment of architectural solutions with other disciplines
- Ensuring meeting project deadlines
- Defending project documentation in Approval Authorities
- Author supervision on construction site
- Participation in commissioning of the completed facility

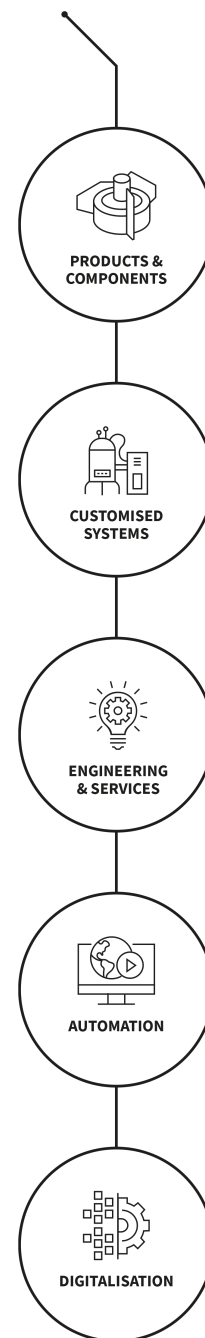

Your profile

- University degree (specialty - architecture)
- At least 5 years of architectural design experience at all phases of design development
- Proven experience in the design of industrial facilities at the detailed design stage
- Excellent knowledge of local regulatory documentation on design and construction
- Good skills in MS-Office, Revit
- English fluent
- Russian fluent
- Passionate about the direction of industrial engineering, in biotechnology, pharmaceuticals, food manufacturing
- Willingness to study in depth the specifics of cleanroom design, GMP standards, international regulations and requirements for these facilities

Under the motto "Let's Engineer Your Career Together" we are looking forward to receiving your application!

Apply now and become part of the ZETA-Team!
